- **State Management:** Hands-on experience with state management solutions in Flutter, including Cubit, Bloc, and Provider, ensuring scalable and maintainable app architectures.
- **Soft Skills:** Adaptability, Teamwork, Communication Skills, Problem-Solving.

## Education

---

- Helwan University | Cairo, Egypt | (01/2022 -> Present) , International Business.
- 

## Projects

---

### → Weather App

Drive Video Link: [Weather-App](#)

Overview:

Weather App is a beautifully designed and feature-rich weather application built using Flutter. It provides real-time weather updates, forecasts, and climate insights with an intuitive and modern UI. The app integrates with external weather APIs to fetch and display up-to-date weather data.

### → Swift Talk (Chat App)

Drive Video Link: [Swift-Talk](#)

Overview:

The Chat App is a real-time messaging application developed using Flutter. It provides users with a modern, secure, and seamless chatting experience, leveraging Firebase for authentication and data storage. The app incorporates robust state management using (**Cubit**) to efficiently handle user authentication, message flow, and UI updates, ensuring a smooth and responsive user experience.

### → Notes App

Drive Video Link: [Notes-Application](#)

Overview:

The Notes App is a simple and elegant application developed using Flutter. It allows users to create, edit, and manage their notes efficiently. The app focuses on providing a smooth user experience through its modern UI and robust state management.
